

### SUPERIOR COMFORT

**Fast Heating or Cooling.** The inverter function increases capacity for short periods to allow for more rapid cooling or heating.

**Hot Start Function.** In heating mode, the "Hot Start" function warms the indoor heat exchanger to a preset temperature to ensure only warm air is discharged.

### FLEXIBILITY

**Zoning Functions.** The system can be zoned to allow different areas to be turned on and off as required.

### EFFICIENCY

**Inverter Technology.** Once the set temperature is achieved, the inverter reduces the amount of energy consumed to maintain the desired temperature.

### NOISE CONTROL

**Night Quiet Mode.** Timer or automatic setting is available to reduce the compressor speed at night.

**Outdoor Unit Fan Design.** Aerofoil fan, high-flared bell mouth and super aero grille all contribute to reducing air turbulence which is a major contributor to noise.

### DESIGN

**Some Components Made in Australia.** The indoor fan coil is designed and built in Australia from high strength galvanized steel. The fan coil will fit in limited roof space between the roof trusses and can be easily dismantled for installation.

**Fan Speeds.** Multiple fan speeds available to be field set to supply the required air flow to the conditioned spaces.

### INSTALLATION AND AFTER SALES SUPPORT

**Made with you in mind.** Daikin Specialist Dealers design the system to suit your requirements and provide the most flexible and efficient option for your household.

**Warranty.** Daikin provide a 5 year parts and labour warranty on products purchased and installed in Australia or New Zealand.

**After Sales Service & Support.** Daikin has service facilities in all major centres and provide excellent after sales service and support.

**NOTE:** Not all features listed can be used simultaneously or are available on all models.

# CONTROLLERS

## CLIMATE CONTROL YOUR HOME

The ability of a Daikin Ducted System to deliver ultimate comfort is maximised by your choice of controller. Daikin's Ducted controllers have features to make it easy for you to operate and provide total climate control in your home.

### NAV EASE CONTROLLER (STANDARD)

#### Key Features:

- Backlit display
- Large buttons and arrow keys for simple operation
- Guide on display
- Weekly schedule timer
- Multilingual display available

### ZONE CONTROLLER (OPTIONAL UPGRADE)

#### Key Features:

- Ability to program your system to turn on/off after a pre-set number of hours
- Ability to zone areas in your home for ultimate comfort control
- Up to two on and two off programs can be set for each day to suit your lifestyle
- Ability to link modes and set temperatures to each program
- Filter cleaning reminder periodically alerts you to clean air filters

### DAIKIN i-TEXT\* (OPTIONAL EXTRA)

Come home to a perfectly comfortable temperature simply by using your mobile phone. i-text allows you to switch your air conditioning "on" or "off", select your ideal temperature, or check settings all via text message.

For peace of mind, it texts you back to confirm your instructions have been carried out. Daikin i-text can be easily and quickly installed to new and most existing Daikin ducted air conditioning systems by your Daikin Specialist Dealer.

\*Subject to GSM coverage. Sim card required.
