Exclusive acceptance from the National Asthma Council Australia and the Asthma & Respiratory Foundation New Zealand.

The National Asthma Council Australia and Asthma & Respiratory Foundation New Zealand introduced the Sensitive Choice program to help identify products better suited for people who suffer from asthma and allergies. Daikin is the only air conditioning company authorised to display the Sensitive Choice butterfly symbol on its range of Split System Air Conditioners and its Air Purifier. Daikin Split Systems and Air Purifiers have advanced air-purifying technology that may help reduce some of the triggers that affect asthma and allergy sufferers. This technology also helps to provide a cleaner, fresher indoor environment for you and your family. This exclusive acceptance reflects the advanced technology and innovation of Daikin’s Split Systems and Air Purifiers.

**Options**

- Titanium apatite photocatalytic pleated filter for replacement
- Bio-antibody filters for replacement
- Titanium apatite photocatalytic pleated filter
- Bio-antibody filter

### Photocatalytic Air Purifier

- **Model**: MC707PVM
- **Power supply**: 10/220-240 V 50 Hz
- **Regulation**: C-tick Marking
- **Type**: Photocatalytic air purifier
- **Dimensions (H x W x D) mm**: 533 x 425 x 213
- **Colour**: Silver
- **Weight**: 8.7 kg

**Options**

- Titanium apatite photocatalytic pleated filter for replacement
- Bio-antibody filters for replacement

- **Type**: Photocatalytic air purifier
- **Dimensions (H x W x D) mm**: 533 x 425 x 213
- **Colour**: Silver
- **Weight**: 8.7 kg
The Daikin Air Purifier produces air that is not only cleaner but also fresher with the negative ions it releases.

**REFRESHES YOUR LIVING SPACE**

The Daikin Air Purifier is not only a cleaner but also fresher with the negative ion generator. Positive ions attract atmosphere pollutants, particles of dust and other airborne matter. Negative ions which are abundant in places such as forests and near waterfalls cancel the effects of positive ions and clean the air.

**QUICK OPERATION**

Quick operation is achieved by Daikin's innovative shroud fan and low-pressure-loss filter.

**SUBSTANCES REMOVED**

- Pollen
- Mites
- Mould spores
- Cat and dog hair
- Formaldehyde
- Chloroform
- Diesel exhaust particles (DEP)
- Household odours*
- NOx
- Bacteria and viruses
- Dust particles and pet hairs are removed and the air is purified. Airborne matter such as bacteria and viruses are captured and the air is purified.

**EASY CLEANING AND MAINTENANCE**

The Daikin Air Purifier comes with seven replaceable filters. Each filter can be used for up to one year depending on how the unit is used and where the unit is located. The replacement period will be shorter if the unit is used in a location where the air is very dirty.

**PORTABLE**

The compact air purifier with easy-to-carry handle, allows for easy lifting. It is great for moving the air purifier between rooms.

**QUICK OPERATION**
